ELKO COMMISSIONERS

ORDER DOGS KILLED

The Elko county commissioners have passed a resolution in conformity with the recommendations issued by the Winnemucca rabies conference, and have ordered the peace officers throughout the county to kill all dogs found running at large whether they are muzzled or not. Owners of dogs must keep them confined on the premises.—Humboldt Star.

EGYPTIAN LABOR CORPS

(By Associated Press.)

CAIRO, Jan. 18.—One section of the British army operating on Lemnos and other bases in the Mediterranean, doing an important and dangerous work without receiving any mention officially or in the newspapers, is the Egyptian Labor Corps, composed of native laborers from Egypt. The members have engaged in such tasks as bridge and war building and erecting huts and storehouses. Their officers are Englishmen who were employed before the war in private engineering and land work in Egypt.

SNOWSLIDES FEARED ON WHITE MOUNTAINS

EIGHT FEET OF THE BEAUTIFUL NOW PILED UP ON SUMMIT OF RANGE

The Nevada California Power company has a corps of vigilant, sturdy men of skills patrolling its power lines that cross the White mountains, ready to render first aid to the injured in case the dreaded avalanche should roll down the steep declivities and carry away the lines and poles, even as they did six years ago on a winter somewhat similar to this for climatic conditions.

F. M. Bruce, the local manager of the company, says that thus far no damage has been done, even the telephone line keeping clear, although avalanches may occur at any time.

The company's watchers report seven feet of snow at Roberts while it is eight feet deep on the summit. Even Lida, on the very edge of Death valley, has four feet of snow.

MERGER MINES CO. TO DRIVE A RAISE

WORK HAS REACHED A POINT WHERE INTERESTING RESULTS ARE PROBABLE

In the property of the Goldfield Merger Mines company the crosscut on the 1175-foot level is being driven to the north, in the Sunflower claim and in the shale, having passed out of the latite and through the silicified zone marking the contact between the latite and shale. The work is now progressing toward the point where the bonanza ore-channel of the Jumbo Extension, adjoining on the west, is believed to enter the Sunflower claim of the Merger, but at this point, according to present indications, the contact is considerably above the 1175-foot level of the Merger, says the Tribune.

It is the plan of Manager Willis Lawrence to drive a raise from this crosscut to reach the shale contact, starting this work within the next week or 10 days, and to prospect the contact zone from this point. Geo. H. Garrey, the eminent geologist who has been retained as consulting engineer for the Merger company, is expected here shortly to confer with Manager Lawrence upon future plans of development and to elaborate on the system decided upon earlier by the two engineers.

GREAT BEND HAS LOW GRADE ORE

CROSS-CUT AND DRIFT ON 400 LEVEL ARE SHOWING GOOD QUARTZ

The Great Bend company is developing its property in a comprehensive manner, under the direction of Superintendent Jack Campbell, who was in charge of the early day operations on the nearby Quartzite property, when a large extraction of high-grade shipping ore was made, and who is thoroughly familiar with this territory. The Great Bend property has excellent equipment, the surface plant being a duplicate of that installed at the Velvet shaft of the Jumbo Extension company.

In driving a crosscut to the south, toward the footwall of the great lode, a large body of quartz has been penetrated that yields encouraging assays in gold, and drifts are to be extended east and west along this low-grade ore. The east drift, also on the 400-foot level, has been following the course of the main vein and has also exposed quartz of good appearance. This drift is seeking the downward extension of a body of rich ore exposed by early lessees in a winze below the 250-foot level.—Tribune.

\$10,000 FOR THE RABIES CAMPAIGN

(Continued from Page 1)

portant appointments I have had to make," said Governor Boyle this morning. "The sentiment of the people in the eastern part of the state is strongly in favor of the rabies commission taking charge of this matter throughout the state, and the men who will be in charge of the work will have money to spend and a great amount of work to do. We are headed in the right direction now and if all plans work out as expected we will be able to cope with this situation in an efficient manner."

Woolgrowers Ask National Aid

ANOTHER PENALTY PARTY TAKES PLACE

THREE GRADES ENTERTAINED THREE OTHER CLASSES IN THE GYMNASIUM

Just because the Junior, freshmen and seventh grade classes combined could not sell as many tickets to the Bishop-Tonopah football game as the seniors, sophomores and eighth grade, they had to entertain, and entertain they did in the high school gymnasium last evening.

Their program was a varied one and demonstrated admirably the versatility of the school pupils. There were solos, and recitations, stunts and dancing and best of all plenty of excellent eats. The high school orchestra furnished the music for the dance.

Since its last appearance the orchestra has acquired a set of bells, an additional violin played by Miss Gomer and a baritone in the hands of Mr. Walker. Much is expected from this branch of school work.

TODD PROPERTIES BEGIN OPERATIONS

ROBERT B. TODD IS ON GROUND AND PERSONALLY SUPER-INTENDING WORK

Robert B. Todd, the well known Luning mining operator, was in Mina for a short time one day this week, from Luning where he is at the present time looking after his mining interests in that section preparatory to the early resumption of operations on both the Luning Gold Mining company and the Idaho-Luning Mining company. Already a small force is at work on both properties. The property of the Luning Gold Mines company has recently been taken over by a new company now being formed, which will be known as the R. B. Todd Mining company, says the Western Nevada Miner.

A good strike of copper has been made on the Idaho-Luning estate. In order to be in closer touch with his operations Mr. Todd has transferred his headquarters and offices from Los Angeles to Reno. For the past year Mr. Todd has been unable to look after his interests, but now that he is able to again take charge things will be made to hum in the Luning district.

Mr. Todd says that never in the history of mining has the outlook been so promising as it is at the beginning of 1916. Capital is now seeking investments in good legitimate mining properties, and the mines of Mineral county are considered the one big and best bet.

Delegates to the National Wool Growers' convention, held last week in Salt Lake City, Utah, subscribed a fund of \$10,000 to send a committee to Washington to work for legislation that will obtain results more satisfactory to wool growers in the administration of grazing area of the west for a non-partisan tariff commission.

Resolutions adopted ask congress to amend existing tariff laws on sugar, meats, wool and other products through a non-partisan tariff commission. The department of agriculture is urged to require that all imports from countries where the foot and mouth and other animal diseases prevail be sterilized or excluded, and similar action by the various states is requested.

Referring to the prevalence of rabies among coyotes in the west, the convention by resolution asks congress to appropriate \$500,000 at once to be used by the biological survey in the eradication of predatory animals.

ASSESSMENT NOTICE NO. 5

CASH BOY CONSOLIDATED MINING COMPANY

Location of principal place of business, Carson City, Nevada. Location of mine and works, Tonopah, Nye County, Nevada.

Notice is hereby given that at a meeting of the Board of Directors, held on the 15th day of January, 1916, an assessment of one cent per share was levied upon the capital stock of the corporation, payable immediately, in United States gold coin, to the Secretary, at the branch office of the company, Tonopah, Nevada.

Any stock upon which this assessment shall remain unpaid on the 16th day of February, 1916, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on Monday, March 20, 1916, to pay the delinquent assessment, together with the cost of advertising and expenses of sale.

By order of Board of Directors.
E. H. MEAD, Secretary.
Tonopah, Nevada. J15P17

PLENTY OF WATER IS NOW ASSURED

PRECIPITATION FOR STORM TO DATE IS ABOUT AN INCH OF MOISTURE

Since the beginning of the storm, up to 5 o'clock this morning, the precipitation in the form of rain and melted snow was .59 of an inch. Since 5 o'clock the precipitation has been heavier than before and by this hour it is probable that a full inch of precipitation has fallen.

Reports from Goldfield are that the storm in heavy there also, while Manhattan summit is covered so deeply that it is closed to auto traffic. The rain that fell in Tonopah last night was snow on the greater elevations and huge drifts were formed, ensuring an ample supply of water for next season, even though there should be a deficiency for the remainder of the season.

Dave S. Llewellyn, who forced his way through the drifts from Round Mountain yesterday afternoon, says that the snowfall on the watersheds is now so heavy that there will be plenty of water for hydraulic operations all through the season.

CLAIM JUMPING CASE IN DISTRICT COURT

ACTION BROUGHT BY L. F. CLAR TO DISPOSSESS THREE RELOCATORS

L. F. Clar, the well known mine operator of Manhattan, representing an eastern firm, today filed action in the district court to dispossess Peter Choklet, Martin Yelovich and Charles Tarasch, who, he alleges, jumped a placer claim in his care, on which he alleges that the full amount of assessment work was done and recorded. Mr. Clar is represented by H. R. Cooke in this action.

JUDGE REFUSES TO USE DISCRETION

(Continued from Page 1.)

pertaining to the public good and stood sponsors for his appearance before either the district court or any appellate court at any time, asking that he be admitted to bonds.

Judge Walsh permitted Mr. Detch calling to the witness stand as many jurymen in the case as could be summoned on such short notice. They testified substantially as follows:

Robert Von Patten—"The court did not recognize our misdemeanor verdict when we brought it in. We certainly didn't want to give Mr. Booth a jail sentence."

"Doc" Tanner—"We didn't want to give Booth a jail sentence, none of us did. If I had thought that Old Bill Booth would have been given a jail sentence I would have voted for acquittal and so would every other man on the jury. We just wanted him to be a good dog, that's why we brought in the misdemeanor verdict and asked for clemency."

Harry Gomm—"The jury was unanimous for leniency. We wanted to bring in a simple misdemeanor verdict, where we all would agree. Every member of the jury wanted leniency."

W. Jenkins—"We all felt that we should get Booth off as light as possible. We brought in a misdemeanor verdict, which the judge wouldn't accept. We wanted to bring in the lightest degree of punishment. We wanted to clear Sanders and let Booth off with the minimum of punishment."

Ray Robb—"When we started our deliberations we immediately put aside the felony charge, almost without debate. Then we took up the gross misdemeanor charge and we unanimously put that aside also. We considered that our instructions gave us latitude and we got together on a simple misdemeanor verdict. The judge however, wouldn't take our verdict. He handed it back without comment. We debated some time and came to the conclusion that if we brought in a verdict of gross misdemeanor, the judge would pass a minimum sentence and then, because of our recommendation, he would repeal (evidently meaning remit the fine) it. We were all for Booth and wanted to do him justice and hoped the court would be merciful. We felt he had done wrong, but all we wanted was Sander's vindication."

Martin Evanson—"I concur with all the other jurymen here said."

In his appeal to the court for admission of his client to bail, Mr. Detch said in part: "Mr. Booth is not a tramp. He is an oldtimer in this community and in the state. He is identified with large interests in

VON PAPAN'S PAYMENTS OF MONEY DENIED

(By Associated Press.)

BERLIN, Jan. 18.—Denial is made by a semi-official news agency that Von Papan, the recalled military attaché at Washington, made payments in connection with attempts to blow up munitions factories and bridges in the United States.

GAINS VICTORIA CROSS

(By Associated Press.)

LONDON, Jan. 18.—Lieutenant Wilbur Dartnell of the Royal Fusiliers, who has been posthumously awarded the Victoria Cross, is believed to be the first actor to have gained this honor.

It was in East Africa that Dartnell, although shot in the leg, crawled out to save the life of his comrades stricken in action, and he gave his life in this attempt.

Dartnell was an Australian by birth. He served in the South African war and afterward gained some distinction on the stage.

If you want the telegraph and local news—try the Bonanza.

mining and other ways. He would be amenable to the district or appellate courts at any time, whether under bonds or not.

"Your honor is the first judge in this state to interpret the law under which this conviction was obtained and should the appellate court reverse your decision you could not live long enough to sufficient regret your action and the wrong you have done this man."

Judge Walsh declined to exercise the court's discretion in the matter, saying in part as follows: "The affidavits speak for themselves. The testimony of the six jurors who were on the stand goes to another question. In dealing with the latter phase, counsel for defense places the court in a peculiar position. The court did not know what was in the minds of the jurors. The jury did recommend the mercy of the court. The court pronounced the minimum imprisonment sentence." The court then discussed at length the law governing gross misdemeanors. He expressed regret that the wife of the defendant should be so ill with a nervous malady, but he declined to depart from his original ruling that the defendant should not be admitted to bail pending the appeal.

Attorney Detch then took an exception to the court's failure to exercise its right of discretion and admit the defendant to bail. He said: "You have abused the discretionary right imposed in the court by the law. The court has not followed the request made by the jury for leniency and mercy."

There was no audible sign of feeling in the crowded courtroom, but the hand of Mr. Booth was grasped by each and all of the spectators as they silently filed out and the defendant was led to his place of confinement.

BUTLER THEATER

Tonight's program at the Butler will consist of a Lasky production entitled "The Arab," featuring Edgar Selwyn and Theodore Roberts, from the drama of the same name. It is a thrilling story showing how a noble young Sheikh saves an American girl from a massacre of the Christians in Syria and snatches her from the clutches of a villainous Turkish Governor. Taken in the heart of the Great American Desert, with whole caravans and companies of desperate Bedouins, make the most amazing scenes of desert life and warfare ever produced on stage or screen. Mr. Selwyn who has for several years ranked as one of the leading lights of the American stage, made his first stage appearance with William G. Hette at the Garrick Theater, New York, in 1896. After a couple of seasons in stock he played Dugard with E. H. Southern in "The King's Musketeers," and Tony in "Arizona" and many other Broadway successes. "The Arab" was one of his recent original works. It is confidently asserted that his interpretation of the title role in "The Arab" will establish him forever as one of the leading photo dramatic stars of the entire world. In the picture are scores of camels, hundreds of horses and some hundred or more actors which actually made a pilgrimage into the desert more than a hundred miles from any railroad. The caravan was not make-believe, but real and organized for practical service as well as for photo dramatic purposes. The preliminary reel will be Paramount travel pictures. Tomorrow, Viola Dana, in the role of "Fifty-Fifty Mamie" in "Children of Eve," an Edison masterpiece.

NOMINATION CONFIRMED

A wire from Senator Pittman states that the nomination of James J. McQuillan by President Wilson, as postmaster at Tonopah, was confirmed yesterday by the United States senate.

Dr. Cox has removed his office from the Wingfield house on Central street to the rooms formerly occupied by Key Pittman on the third floor of the State Bank and Trust building.
